Day 5:

You will also have a chance to visit the Ngorongoro crater which has its share of geological history. High concentration of wildlife can be seen in the 110 m sq caldera and it's like a small "garden of Eden".

The geological feature is an interesting destination with the most intact walls dropping at 2,000ft. The various habitats on the floor include forests, open grasslands, alkaline lake, freshwater swamps and rivers flowing into Lake Makat which only loses its water via evaporation. The lake at the same time has been home to thousands of migratory lesser and greater flamingos besides other water birds.

Day 6:

Breakfast is served at the Lodge.

Depart for Lake Manyara National Park for the unique game drive experience. The park which is in the rift valley offers a healthy population of flora and fauna species. Cold water springs can be seen in the park and end up draining in lake Manyara.

Lunch is served at the Lodge.

Afternoon at Leisure.

Sunsets drinks are included just before your dinner is served at the Lodge.
